KENWOOD IRIS GARDEN LIST OF STANDARD PEONIES

(Mrs. J. F. Emigholz)

SY. 7496

RECEIVED  
APR 30 1947  
Cincinnati 27, Ohio

7595 Montgomery Road

The following varieties represent the best types of peonies of moderate price. An exhibition planting of many newer and more expensive introductions of Auten, Brand and Franklin, and from other sources, are planted in the rear of the house, and a bed of 200 standard varieties are planted along the highway. Price of any variety you desire that is not listed, will be sent on application.

Peonies grow slowly. It takes two to three years to produce good plants, but they increase in beauty each year, and last for a long time. For this reason it is advisable to carefully select peonies, making cost the secondary consideration.

TERMS: Cash with order, or before delivery. 3 to 5 eye divisions are sent. Order of \$5.00 and over are prepaid. For postage on smaller order, allow 10¢ extra per plant. Minimum order \$2.00. Roots shipped after Sept. 5th. All orders should be received before Sept. 1st, so that extra roots can be ordered, if necessary.

Time of Bloom placed before name. "E" Early, "M" Midseason, "L" Late, "VL" Very Late.

Semi-Double: Initial SD after rating. Many appear almost double.

Culture: Place the plant in the ground, so that the buds on the crown are one to two inches below the surface, and the roots extend outwards. Firm soil. Use some commercial fertilizer below roots, well mixed with the soil, and an annual top dressing in early spring. Fall is the best time for planting peonies, but they can be planted in early spring. Some bloom appears the first year.

Special Collections (Prepaid)

- 4 Var. Our Selection: A white, light and deep rose, and a red var. for \$3.00.
- 6 Favorites: Avalanche, white; Baroness Schroeder, blush white; Chestine Gowdy, light rose; Souv. Bigot, deep rose; Lora Dexheimer, light crimson; Grover Cleveland, dark crimson. Listed at \$6.00, for \$5.25.
